

VRIS UPDATE

Easter Seals and Outsource Monitoring of SE Cases Effective 9/23/10 Number 283

SUMMARY OF UPDATES

This chapter is being revised to document the addition of “ABI or Autism Provider” to the Program menu on the Services and Benefits Screen. Now that there are supported employment programs for Acquired Brain Injury (Goodwill Industries of Greater Nebraska, Employment Works in Norfolk, and Career Solutions (Ollie Webb Center) in Omaha) and for Autism (Autism Center of Nebraska), a menu item was needed to identify these programs.

Note: The Quest script for the Easter Seals EW Monitors will only display the Contact Person and Contact Number of an SE Provider from the Services and Benefits screen if VR staff member has selected one of the four program choices identified in the Easter Seals and Outsource Monitoring of SE Cases chapter. A common mistake is to (1) not select any program, (2) select Goodwill from the list when a consumer is in the BHEP or ABI SE Program, or (3) enter the Contact Name or information in the Task Notes or the Family and Friends screens. Neither the Task Notes nor the Family and Friends screens display for the Easter Seals EW Monitors.

VRIS POSTING

This chapter is posted to VRIS: Program Manual: Employment Warranty: [Easter Seals and Outsource Monitoring of SE Cases](#)

Experience Works	Social Security - Child of Disabled Parent
	Social Security - Disability (SSDI)

TEAM COMMUNICATION

This chapter should be reviewed in a Team Meeting as every month the Easter Seals Monitors have SE cases come up for review and the Contact Person and Contact Name are not displayed as teams have not followed the process outlined in this chapter. Doing it correctly the first time will save time for everyone later.
